Online Ceramics Galleries and Art Museum Collections

All of the galleries and museums linked in this document have viewable online galleries or collections, and some are extensive. The galleries and one museum listed in the first category have a significant focus on ceramics, while the art museums are more general. Most of the galleries handle both functional and sculptural work, with some stressing one or the other. If you come across a good online gallery or museum collection that is not on this list, please let me know via [email](#).
